Find The Mac Address

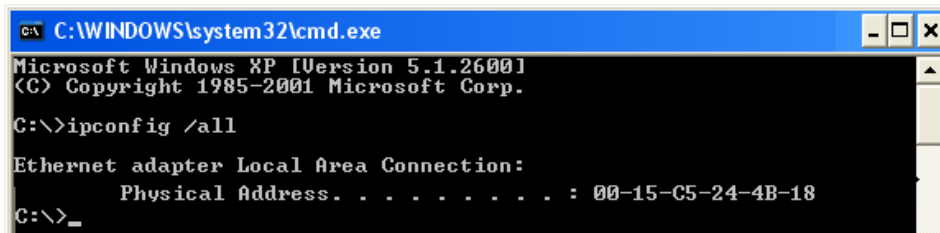

Click on the Green
“START” button on the
bottom left of the
screen and then click
on “RUN...”

Type CMD and click
on “OK” button

Type **ipconfig /all** and
press the “ENTER” key

Look for “Ethernet adapter Local Area Connection:” and then look under that for the “Physical Address.” The series of numbers and letters with the dashes next to the “Physical Address” is the MAC address need to be able to access the network.
